## P.E.T.S. REPORT

By Joe Ziino

On Sunday March 14<sup>th</sup>, we celebrated our 21st (you were correct Carol) annual St. Patty's day Spaghetti Fest luncheon at the club. If you didn't attend, you missed out on a very special day.

This day is always an enjoyable event, as it signals the end of winter and prepares us for spring and our outdoor activities. One of the truly nice things about this event is getting together with fellow club members and eating good food in a relaxed atmosphere. Even the weather cooperated as we had a warm sunny day and the snow in the parking lot was melted.

We also hold a little raffle with some nice gifts. It would appear that Jack & Jolene Zimdars have a "fix" on winning. Last year Jack won 2 raffles and this year Jolene won 2.

Many people help out on this weekend event and I would like to thank everyone for their assistance in helping clean up after training, setting up the tables and chairs and again after our luncheon putting everything away. It's great to see so many people willing to pitch in. Thank you.

I would especially like to thank the cooks and assistants who brought us this good meal. This has basically been the same crew along with a few new trainees, bringing you this event all these years. They have done a dynamic job despite years of harassment from me (someone needs to keep them in line) and I just want to thank them for their time and devotion.

This year presented an unusual challenge for the "kitchen crew"....I was having an "age" day as I forgot several key ingredients for the sauce. While I was driving around the state (I had to drive back to Fond du Lac for the sausage), then had to drive to Pick N Save for spices (Carol gave me bad directions); the kitchen crew had to fend for themselves on cooking, without the usual direction I provide. Although it took them a little longer to complete the cooking, the results were still outstanding.

Kitchen Crew: Saturday Cooking: Sharon Golden, Carol Lumley, Nancy Bertsch, Paulette Gallatin, Diane Stefonich, Jolene & Jack Zimdars, Joe Ziino.

I would also like to thank Cathy Los who took on sink duty on Sunday.

And again, I really would like to thank all club members for making this a very special day.

## Club Reports & Up-dates

### Buildings & Grounds

#### Spring Clean up

Please mark your calendars for this fun event. Everyone is welcome bring gloves, rakes, weed eaters, etc.

We have two dates set aside one will be April 17th with a rain date of April 24th. In the event of a really bad rainy day that is when we move to the next date. We have worked on semi misting days so if you aren't sure please call . . . .

**Ron Labinski at 262-547-2334.**

**A lunch is provided for everyone.**

### Thank You

Have you noticed? Every time you enter the club house more finishing touches are being made. Thank you to Gene Birdeau for donating & installing the mop board around the addition area with the help of Mike Los the job went rather quickly.

The finishing touches to the framing of windows, electrical boxes and yes even

the metal center post was paneled - the work of Head master engineer Joe Caputa with the assistance of Jack Zimdars, Dennis Smeska and Ron Labinski also helping with the projects Paulette Gallatin, Camille Labinski, and Mary Pluta.

In the process of being engineered are the carts for the tables (*at St. Patty's Fest the tables went up in no time*).

### Attention Everyone

Please make sure to up-date your phone numbers and e-mail addresses with our membership people.

This way we can keep in touch with you should something important come up. Like different training times, or cancelled classes due to really Bad Weather!!!

## **AKC's Canine Good Citizen® (CGC) Program**

### **Training/Testing: CGC Test Items**

Items on the Canine Good Citizen Test include:

#### **Test 1: Accepting a friendly stranger**

This test demonstrates that the dog will allow a friendly stranger to approach it and speak to the handler in a natural, everyday situation. The evaluator walks up to the dog and handler and greets the handler in a friendly manner, ignoring the dog. The evaluator and handler shake hands and exchange pleasantries. The dog must show no sign of resentment or shyness, and must not break position or try to go to the evaluator.

#### **Test 2: Sitting politely for petting**

This test demonstrates that the dog will allow a friendly stranger to touch it while it is out with its handler. With the dog sitting at the handler's side, to begin the exercise, the evaluator pets the dog on the head and body. The handler may talk to his or her dog throughout the exercise. The dog may stand in place as it is petted. The dog must not show shyness or resentment.

#### **Test 3: Appearance and grooming**

This practical test demonstrates that the dog will welcome being groomed and examined and will permit someone, such as a veterinarian, groomer or friend of the owner, to do so. It also demonstrates the owner's care, concern and sense of responsibility. The evaluator inspects the dog to determine if it is clean and groomed. The dog must appear to be in healthy condition (i.e., proper weight, clean, healthy and alert). The handler should supply the comb or brush commonly used on the dog. The evaluator then softly combs or brushes the dog, and in a natural manner, lightly examines the ears and gently picks up each front foot. It is not necessary for the dog to hold a specific position during the examination, and the handler may talk to the dog, praise it and give encouragement throughout.

#### **Test 4: Out for a walk (walking on a loose lead)**

This test demonstrates that the handler is in control of the dog. The dog may be on either side of the handler. The dog's position should leave no doubt that the dog is attentive to the handler and is responding to the handler's movements and changes of direction. The dog need not be perfectly aligned with the handler and need not sit when the handler stops. The evaluator may use a pre-plotted course or may direct the handler/dog team by issuing instructions or commands. In either case, there should be a right turn, left turn, and an about turn with at least one stop in between and another at the end. The handler may talk to the dog along the way, praise the dog, or give commands in a normal tone of voice. The handler may sit the dog at the halts if desired.

#### **Test 5: Walking through a crowd**

This test demonstrates that the dog can move about politely in pedestrian traffic and is under control in public places. The dog and handler walk around and pass close to several people (at least three). The dog may show some interest in the strangers but should continue to walk with the handler, without evidence of over-exuberance, shyness or resentment. The handler may talk to the dog and encourage or praise the dog throughout the test. The dog should not jump on people in the crowd or strain on the leash.

#### **Test 6: Sit and down on command and Staying in place**

This test demonstrates that the dog has training, will respond to the handler's commands to sit and down and will remain in the place commanded by the handler (sit or down position, whichever the handler prefers). The dog must do sit AND down on command, then the owner chooses the position for leaving the dog in the stay. Prior to this test, the dog's leash is replaced with a line 20 feet long. The handler may take a reasonable amount of time and use more than one command to get the dog to sit and then down. The evaluator must determine if the dog has responded to the handler's commands. The handler may not force the dog into position but may touch the dog to offer gentle guidance. When instructed by the evaluator, the handler tells the dog to stay and walks forward the length of the line, turns and returns to the dog at a natural pace. The dog must remain in the place in which it was left (it may change position) until the evaluator instructs the handler to release the dog. The dog may be released from the front or the side.

### **Test 7: Coming when called**

This test demonstrates that the dog will come when called by the handler. The handler will walk 10 feet from the dog, turn to face the dog, and call the dog. The handler may use encouragement to get the dog to come. Handlers may choose to tell dogs to "stay" or "wait" or they may simply walk away, giving no instructions to the dog.

### **Test 8: Reaction to another dog**

This test demonstrates that the dog can behave politely around other dogs. Two handlers and their dogs approach each other from a distance of about 20 feet, stop, shake hands and exchange pleasantries, and continue on for about 10 feet. The dogs should show no more than casual interest in each other. Neither dog should go to the other dog or its handler.

### **Test 9: Reaction to distraction**

This test demonstrates that the dog is confident at all times when faced with common distracting situations. The evaluator will select and present two distractions. Examples of distractions include dropping a chair, rolling a crate dolly past the dog, having a jogger run in front of the dog, or dropping a crutch or cane. The dog may express natural interest and curiosity and/or may appear slightly startled but should not panic, try to run away, show aggressiveness, or bark. The handler may talk to the dog and encourage or praise it throughout the exercise.

### **Test 10: Supervised separation**

This test demonstrates that a dog can be left with a trusted person, if necessary, and will maintain training and good manners. Evaluators are encouraged to say something like, "Would you like me to watch your dog?" and then take hold of the dog's leash. The owner will go out of sight for three minutes. The dog does not have to stay in position but should not continually bark, whine, or pace unnecessarily, or show anything stronger than mild agitation or nervousness. Evaluators may talk to the dog but should not engage in excessive talking, petting, or management attempts (e.g, "there, there, it's alright").

### **Equipment**

All tests must be performed on leash. Dogs should wear well-fitting buckle or slip collars made of leather, fabric, or chain. Special training collars such as pinch collars, head halters, etc. are not permitted in the CGC test. We recognize that special training collars may be very useful tools for beginning dog trainers, however, we feel that dogs are ready to take the CGC test at the point at which they are transitioned to regular collars.

The evaluator supplies a 20-foot lead for the test. The owner/handler should bring the dog's brush or comb to the test.

### **Encouragement**

Owners/handlers may use praise and encouragement throughout the test. The owner may pet the dog between exercises. Food and treats are not permitted during testing, nor is the use of toys, squeaky toys, etc. to get the dog to do something. We recognize that food and toys may provide valuable reinforcement or encouragement during the training process but these items should not be used during the test.

### **Failures – Dismissals**

Any dog that eliminates during testing must be marked failed. The only exception to this rule is that elimination is allowable in test Item 10, but only when test Item 10 is held outdoors. Any dog that growls, snaps, bites, attacks, or attempts to attack a person or another dog is not a good citizen and must be dismissed from the test.
